

Oval Escutcheon

Designed to complement your Momo Architectural Door Hardware selection, the Momo Oval Cylinder Escutcheon Set provides a refined finishing detail for doors fitted with compatible oval-profile cylinders and lock systems.

Precision-crafted for a seamless fit, its clean oval form creates a polished, minimal aesthetic while supporting reliable everyday performance. Finished to coordinate with the Momo Architectural Door Hardware Collection, the escutcheon set allows for a cohesive hardware scheme across residential and commercial interiors.

Suitable for a range of compatible lock systems, including but not limited to the Dormakaba MS2600 and MS2900 Series.
